

THE FOUNDATION OF HOPE
FUNDED RESEARCH & MHI GRANTS LIST MASTER REPORT
1985-Present

Since the first year a gift was made in 1985, The Foundation of Hope for Research and Treatment of Mental Illness has awarded almost 200 research grants and community service grants totaling more than \$7.1 million. Types of research projects funded include but not limited to schizophrenia, eating disorders, depression, bipolar disorders, PMS, autism, thyroid dysfunction, post-partum depression, post-traumatic stress disorder and social phobias.

<u>Researcher/Applicant</u>	<u>Title</u>	<u>Date</u>	<u>Amount</u>
Dr. Jessica Baker	Probing the Neural Substrates of Bulimia Nervosa	5/20	\$39,065
Dr. Gabriel Dichter	A Stimulus PET/MR Study of Gender Differences in Neuroinflammation in Autism	5/20	\$50,000
Dr. Serena Fiacco	Depression in the Menopause Transition: Stress and inflammation as Pathways of Risk	5/20	\$31,107
Dr. Jessica Girault	Identifying the role of parental traits in explaining phenotypic variability in children with neurogenetic developmental disorders: towards early individualized intervention	5/20	\$39,718
Dr. Hiroyuki Kato	Dissection of Top-down Cortical Circuits Underlying Auditory Oddball Response, a Biomarker for Schizophrenia	5/20	\$40,000
Dr. Mary Kimmel	Microbiome and Methylation (M&M): A Source of Information for Precision Medicine	5/20	\$42,000
Dr. Zoe McElligott	Probing Gene-Environment Interactions in Schizophrenia and Stress: Integrating Human GWAS and Mouse Models	5/20	\$60,000
Dr. A. Leslie Morrow	Mechanisms of Brexanolone Therapeutics in Post-Partum Depression	5/20	\$48,070
Dr. Eliza Park	A web-based intervention to prove mental health outcomes among newly diagnosed parents with cancer	5/20	\$39,997
Dr. Anthony Zannas	A transitional approach to identify biomarkers of COVID-19 related social stress in healthcare workers	5/20	\$85,000
Dr. Karen Poulos & Dr. Amy Ursano	UNC Psychiatry Pediatric Behavior Clinic	11/19	\$20,000
Dr. Karen Poulos & Dr. Amy Ursano	UNC Psychiatry Pediatric Behavior Clinic – EOH/Pilot Program Licensed Psychology Associate	11/19	\$43,450

**The Foundation of Hope
Funded Research Grants Master Report 1985-Present**

Researcher/Applicant	Title	Date	Amount
Dr. Terry Morris, Executive Director	Vets to Vets United	11/19	\$43,450
Dr. Jessica Baker	A Mechanistic Examination of Continuous-Cycle Oral Contraceptive Administration in Bulimia Nervosa	5/19	\$46,942
Dr. Paul Geiger	Depression in the menopause transition: cortisol circadian rhythms and sleep impairment as mechanism risk	5/19	\$38,400
Dr. Zoe McElligott	Evaluating oxytocin in opioid withdrawal: a transitional study	5/19	\$50,000
Dr. Rebekah Nash	Genetic Risk Factors of Post-Traumatic Stress Disorder in Solid Organ Transplant Recipients	5/19	\$39,886
Dr. Jose Rodriguez-Romaguera	Dissecting the Neural Circuits of Hyperarousal States in Psychiatry	5/19	\$200,000
Dr. Guorong Wu	Quantifying the brain developmental trajectory of autism-associated brain overgrowth using 3D cellular resolution imaging	5/19	\$39,069
Dr. Anthony Zannas	Epigenetic Mechanisms of Post-Traumatic Stress and Depression after Sexual Assault	5/19	\$75,000
Dr. Karen Poulos & Dr. Amy Ursano	UNC Psychiatry Pediatric Behavior Clinic	9/18	\$20,000
Dr. Thava Mahadevan	UNC Center for Excellence in Community Mental Health – Wellness on Wheels (WoW)	9/18	\$65,650
Dr. Elizabeth Andersen	Depression Susceptibility in Adolescent Females: Estrogen Variability, Stress Exposure, and Fronto-Limbic Brain Dynamics	5/18	\$38,710
Dr. Flavio Frohlich	Mechanism of Action of Transcranial Alternating Current Stimulation for the Treatment of Major Depression Disorder	5/18	\$100,000
Dr. Heather Hazlett	Cellular and Molecular mechanisms governing cortical surface area overgrowth in iPSC-derived neural cells from longitudinally characterized autism individuals	5/18	\$49,720
Dr. Donita Robinson	Reversing the pharmacological effects of cocaine by allopregnanolone	5/18	\$54,506
Dr. Kai Xia	Predicting Early Brain Development via Deep Learning of DNA	5/18	\$39,742

**The Foundation of Hope
Funded Research Grants Master Report 1985-Present**

Researcher/Applicant	Title	Date	Amount
Dr. Takahiro Soda	The Genetics of ECT	5/18	\$39,990
Dr. Karen Poulus & Dr. Amy Ursano	UNC Pediatric Behavior Clinic (formerly Wake Pediatric Behavior Clinic)	11/17	\$20,000
Dr. Myra Brickell, Board President	Filling the Gaps of Wake County, Inc. (FIGS)	9/17	\$11,708
Mr. Edward Binanay, UNC Burn Center	Chris White Fund	9/17	\$11,708
Dr. Terry Morris, Executive Director	Vets to Vets United	9/17	\$11,708
Dr. Cynthia Bulik	"Binge Eating Genetics INitiative (BEGIN)"	5/17	\$40,000
Dr. Fredrik Jarskog	"Randomized controlled trial of pyridoxine for tardive dyskinesia"	5/17	\$99,905
Dr. Hiroyuki Kato	"Excitation-inhibition imbalance in autistic auditory cortex and its effects on spectro-temporal sound integration"	5/17	\$100,000
Dr. Darin Knapp	"Alcohol Intoxication mediated through medial septal circuitry"	5/17	\$39,210
Dr. Cort Pedersen	"Testing Oxytocin Treatment of Opioid Withdrawal"	5/17	\$40,808
Dr. Joseph Piven Dr. Mark Zylka Dr. Jason Stein	"Prospective Identification of Individuals with a Brain Overgrowth Form of Autism"	5/17	\$40,000
Dr. Crystal Edler Schiller	"Characterizing the Hormone Sensitive Phenotype of Postpartum Depression: An Experimental Investigation of Mood, Behavior, and Brain Function"	5/17	\$39,357
Dr. Hiroyuki Kato Dr. Garret D. Stuber	Deep Phenotyping of Behavioral Patterns Associated with Neuropsychiatric Disease	11/16	\$162,707
Dr. Flavio Frohlich	Achieving Synergy with Multimodal Brain Stimulation: Electricity meet Magnetism	11/16	\$156,613
Dr. Rebecca Knickmeyer Santelli	Identifying Metabolites in the Microbiome-Gut-Brain Axis during infancy	5/16	\$64,881

**The Foundation of Hope
Funded Research Grants Master Report 1985-Present**

Researcher/Applicant	Title	Date	Amount
Dr. Karen Poulos & Dr. Amy Ursano	Wake Pediatric Behavior Clinic - Foundation of Hope Signature Grant	5/16	\$10,000
Dr. Terry Morris, Executive Director	Vets to Vets United	5/16	\$10,973
Ms. Dawn Carter, Chair	Clark's Promise - Raleigh	5/16	\$10,973
Mr. Barry Bryant, Executive Director	Hopeline - NC	5/16	\$8,974
Dr. Garret D. Stuber	Single cell transcriptional profiling to identify novel Neurocircuit targets for reproductive mood disorders.	5/16	\$45,000
Dr. Crystal Edler Schiller	Effects of a Tissue Selective Estrogen Complex (TSEC) on Depression and the Neural Reward System in the Perimenopause	5/16	\$40,000
Dr. Cynthia Bulik	Fecal Microbiota Transplantation for Severe and Enduring Anorexia Nervosa (FMT for SE-AN)	5/16	\$33,250
Dr. Stephanie Zerwas	Predicting the Trajectory of Restrictive Eating in Childhood from Genetic Risk for Anorexia Nervosa	5/16	\$45,000
Dr. Yuhui Li	Establishing Network Targets during Developmental for Non-Invasive Brain Stimulation	5/16	\$37,549
Dr. Samantha Meltzer-Brody	gPACT - a rapid, large & inexpensive study of Postpartum Depression	12/15	\$99,000
Dr. Karen Poulos & Dr. Amy Ursano	Wake Pediatric Behavior Clinic - Foundation of Hope Signature Grant	11/15	\$43,600
Dr. Garret Stuber	Defining, Mining, and Reversing Neurocircuit Adaptions in Addiction	5/15	\$100,000
Dr. Flavio Frohlich	Next Generation Non-invasive Brain Stimulation: A Novel Solution Enabled by Mobile Technology and Big Data	5/15	\$200,000
Dr. Mary Kimmel	The Gut Microbiome and Perinatal Mood and Anxiety Disorders (PMAD) : A Pilot Study to Examine the Microbiome in Relation to Perinatal Changes in Stress & Immune Systems	5/15	\$39,912
Dr. Stephanie Zerwas	Autoimmune Illness, Infections, and Genetic Risk for Anorexia Nervosa	5/15	\$39,981

**The Foundation of Hope
Funded Research Grants Master Report 1985-Present**

Researcher/Applicant	Title	Date	Amount
Dr. James Crowley	Identifying Susceptibility Loci for Tourette's Syndrome in a Densely Affected Pedigree	5/15	\$40,000
Dr. Sarah Short	Investigating Brain and Behavior Development in Typical and High-Risk Children	5/15	\$46,921
Dr. Karen Poulos & Dr. Amy Ursano	Wake Pediatric Behavior Clinic - Foundation of Hope Signature Grant	12/14	\$26,625
Dr. Karen Grewen	Oxytocin effects on cocaine-induced Maternal neglect: A Translational Study	5/14	\$39,956
Dr. Jenna McHenry	Deconstructing Maternal Circuit Elements that Underlie Anxiety & Motivation	5/14	\$40,000
Dr. Eliza Park	Longitudinal Assessment of Mental Health Needs of Advanced Cancer Patients with Dependent Children	5/14	\$38,898
Dr. Shannon Crowley	Sleep Dysregulation & Neuroendocrine Stress Reactivity: Towards a Biopsychosocial Model of Vulnerability to Postpartum Depression	5/14	\$39,605
Dr. Aysenil Belger & Dr. Eric Elbogen	Neural Basis of Decision Making & Emotion Regulation Deficits in Post-Traumatic Stress Disorder (PTSD)	5/14	\$31,222
Dr. Lisa Tarantino	Behavioral Characterizations of a Mouse Model of Wolfram Syndrome: A Disease with Psychiatric Implications	5/14	\$46,620
Dr. Karen Poulos & Dr. Amy Ursano	Wake Pediatric Behavior Clinic - Foundation of Hope Signature Grant	12/13	\$12,775
Dr. Robin Casey	Oxytocin: A Potential New Treatment for Alcoholism	5/13	\$40,000
Dr. Wei Gao	Functional Development Abnormalities Associated with Genetic Risk of Bipolar During Infancy	5/13	\$71,302
Dr. Lara Cinisomo	Assessing the association between stressful life events, hormonal dysregulation and postpartum depression among lactating Latina mothers: A Pilot Study	5/13	\$39,996
Dr. Joyce Beshler	Adolescent Depression: persistent behavioral and neuroadaptations in rat model	5/13	\$39,999
Dr. Shane Rau	Integrated Illness Management and Recovery for Persons with Severe Mental Illness and Metabolic Syndrome (I-IMR)	5/13	\$39,993

**The Foundation of Hope
Funded Research Grants Master Report 1985-Present**

Researcher/Applicant	Title	Date	Amount
Dr. Karen Poulos & Dr. Amy Ursano	Wake Pediatric Behavior Clinic - Foundation of Hope Signature Grant	3/13	\$25,000
Dr. Laura Klinger	Adult Outcome in Autism Spectrum Disorder: A Longitudinal Prospective Study of Individuals Served by the TEACCH Autism Program	3/12	\$39,546
Danita Morgan, Director of Development	Urban Ministries*	3/12	\$2,500
Dr. Robert S. Grew, Secr of Project Comm.	The Clark Grew Health for the Homeless Project*	3/12	\$5,000
Manay Gunter, Executive Director	Club Horizon*	3/12	\$2,500
Dr. Anna Brandon	Partners Fighting Depression During Pregnancy and Postpartum	3/12	\$40,000
Dr. Crystal Schiller	Gonadal Steroids and Neural Function in an Experimental Model	3/12	\$39,984
Dr. Flavio Frohlich	Speaking the Language of the Brain: Adaptive Non-Invasive Brain Stimulation	3/12	\$40,000
Dr. Rebecca Santelli	Gut Microbiota & Brain Development in One-Year-Old Healthy Infants	3/12	\$40,000
Dr. Garret Stuber	Dissecting Amygdala-Cortical Neural Circuits that Mediate Fear and Anxiety	3/11	\$30,000
Alice Lutz	Triangle Family Services*	3/11	\$2,000
Barrett Joyner	The Healing Place*	3/11	\$3,000
Lee James	XDS, Inc*	3/11	\$5,000
Dr. Samantha Meltzer-Brody Dr. Susan Killenberg	Repetitive Transcranial Magnetic Stimulation for the Treatment of Postpartum Depression	3/11	\$39,662
Dr. Franc Donkers	Assessing the Integrity of the Brain's Rhythm in infants @ familia HR for Schizophrenia	3/11	\$39,809
Dr. Darin Knapp	Pathological Responses to Acute Challenges in a Fawn Hooded Rat Model of Comorbid Alcoholism& Depression	3/10	\$39,426

**The Foundation of Hope
Funded Research Grants Master Report 1985-Present**

Researcher/Applicant	Title	Date	Amount
Dr. Joseph Piven	Mapping the Development of Joint Attention Neural Circuitry: A Preliminary step in Developing a Screening Test for Autism	3/10	\$39,999
Marc Jacques	North Carolina Mental Health Consumers' Organization*	3/10	\$5,000
Trish Hussey	Freedom House Recovery Center*	3/10	\$5,000
Dr. Cynthia Bulik	Genetic Consortium for Anorexia Nervosa (GCAN)	3/10	\$40,768
Dr. David Penn	Internet-based CBT for Individuals with Schizophrenia	3/10	\$28,126
Dr. Gary Duncan	Preclinical Assessment of Kainite Antagonists as a Potential New Class of	3/10	\$34,397
Dr. Gabriel Dichter	Neural Correlates of Reward in Autism	3/09	\$39,947
Carolyn Zahnow	Wake Forest Survivors of Suicide*	3/09	\$5,000
Sheila Singleton	North Carolina Depressive and Bipolar Support Alliance*	3/09	\$5,000
Dr. Linmarie Sikich	Pilot Study of Intensive Computerized Brain Training in Early Onset Schizophrenia & Schizoaffective Disorder	3/09	\$34,690
Dr. Brian Sheitman	Research Infrastructure UNC Center for Excellence in Community Mental Health	3/09	\$38,112
Dr. Lisa Tarantino	Genetic Basis of Hormone-Sensitive Affective Dysregulation: Haplotype Association Mapping	11/08	\$78,450
Dr. Donita Robinson	Dopamine Release in Rats with Chronic Alcohol Exposure: Effects of Topiramate	11/08	\$39,999
Dr. Heather Cody Hazlett	A Pilot Study of Brain Development in Infants with Downs Syndrome	11/08	\$40,000
Adam Hartzell	Interact*	11/08	\$3,000
Barrett Joyner	The Healing Place*	11/08	\$2,000

**The Foundation of Hope
