

**THE FOUNDATION OF HOPE**  
**FUNDED MENTAL HEALTH INITIATIVE GRANTS LIST - MASTER REPORT**  
**1987-Present**

A community grant, recently renamed Mental Health Initiative Grants, was given for the first time in 1987. The Foundation of Hope has awarded over 40 Mental Health Initiative Grants to our community totaling over \$570,000. While funding research continues to be our primary mission, we are taking strategic steps towards the goal of supporting effective local mental health treatment programs.
